THE DAILY BRITISH COLONIST.

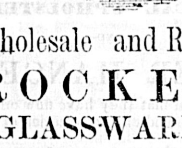

VOL. 10. VICTORIA, V. I., TUESDAY MORNING, JUNE 30, 1863. NO. 17.

Lord Palmerston.

The following sketches we take from Kinglake's great work, "The Invasion of the Crimea:"

The statesman who went his own way was one whose share in the governance of events was not much known. He was supposed to be under a kind of ostracism. He had not been banished from England nor even from the Cabinet; but, holding office under a Prime Minister whose views upon foreign policy were much opposed to his own, and relegated to duties connected with the peaceful administration of justice, it seemed to the eye of the common observer that for the time he was annulled; and the humorous stories which floated about Whitehall went to show that the deposed Lord of Foreign Affairs had condescended to forget his former greatness, and to accept his home office duties in a spirit of half cynical, half-joyous disdain, but without the least discontent. And in truth he had no ground for ill-humor. In politics he was without vanity. What he cared for was power, and power he had. Indeed, circumstanced as he then was, he must have known that one of the main conditions of his strength was the general belief that he had none. The light of the past makes it easy to see the expedient of trying to tether him down in the Home Office would alleviate his responsibility and increase his real power. To those who know anything of Lord Palmerston's intellectual power, of his boldness, his vast and concentrated energy, his instinct for understanding the collective mind of a body of men and of a whole nation, and, above all, his firm, robust will; nay, even to those who only know of his daring achievements—achievements half peaceful, half war like, half-righteous, half violent, in many lands and on many a sea—the notion of causing him to be subordinated to Lord Aberdeen in Foreign Affairs seems hardly more sound than a scheme providing that the greater shall be contained in the lesser. Statesmen on the continent would easily understand this, for they had lived much under the weight of his strenuous nature; but at that time he had not been much called upon to apply his energies to the domestic affairs of England. Besides, he had been more seen in his own country than abroad, and for that very reason he was less known, because there was much upon the mere outside which only tended to mask his real nature. His party Celtic blood, and perhaps, too, in his early life his boyish consciousness of power, had given him a certain elation of manner and bearing which kept him a long time out of the good graces of the more fastidious part of the English world. The defect was toned down by age, for it lay upon the surface only and in his inner nature there was nothing vulgar nor unduly pretending. Still, the defect made people slow—made them take forty years—to recognize the full measure of his intellectual strength. Moreover, the English had so imperfect a knowledge of the stress which he had long been putting upon foreign governments, that the mere outward signs which he gave to his countrymen at home—his frank speech, his off hand manner, his ready banter, his kind, joyous beaming eyes—were enough to prevent them from accustoming themselves to look upon him as a man of stern purpose. Upon the whole, notwithstanding his European fame, it was easy for him at this time to escape grave attention in England. He was not a man who would come to a subject with which he was dealing for the first time with any great store of preconceived opinions, but he wrote so strenuously—he always, they say, wrote standing—and was apt to be so much struck with the cogency of his own arguments, that by the mere process of framing dispatches, he wrought himself into strong convictions, or rather perhaps, into strong resolves; and he clung to these with such a lasting tenacity that if he had been a solemn, austere personage, the world would have accused him of pedantry. Like most gifted men who evolve their thoughts with a pen, he was very clear, very accurate. Of every subject which he handled gravely he had a tight, iron grasp. Without being inflexible, his will, it has been already said, was powerful, and it swung with a great momentum in one direction until, for some good and sound reason, it turned and swung in another. He pursued one object at a time without being distracted by other game. All that was fanciful, or for any reason unpractical, all that was the least bit too high for him, or the least bit too deep for him, all that lay, though only by a little, beyond the immediate future with which he was dealing, he utterly drove from out his mind; and his energies, condensed for the time upon some object to which they could be applied with effect, were brought to bear upon it with all their full volume and power. So, during the whole period of his reign in the Foreign Office, Lord Palmerston's method had been to be very strenuous in the pursuit of the object which might be needing care at any given time, without suffering himself to be embarrassed by what men call a "comprehensive" view of our foreign policy; and although it was no doubt his concentrative habit of mind, and his stirring temperament which brought him into this course of action, he was much supported in it by the people at home; for when no enterprise is on foot, the bulk of the English are prone to be careless of the friendship of foreign States, and are often much pleased when they are told that by reason of the activity of their Foreign Secretary they are without an ally in Europe.

ROYAL MAIL
Steam Packet
Company's Agency,
For British Columbia & Vancouver Island.
OFFICE, MACDONALD & CO., BANKERS,
Yates Street.
THE ATTENTION OF SHIPPERS and passengers is particularly directed to the superior facilities the Royal Mail Steam Packet Company's Line affords for the speedy conveyance of Treasure, Goods and Passengers to and from England to British Columbia and Vancouver Island, in connection with the Pacific Mail Steamship Company's Vessels and the Panama Railroad.
The superiority of the accommodation and entertainment on board the Royal Mail Steamers, together with the time occupied on the passage between England and Aspinwall direct being so much shorter than by any other route, and the moderate rate of passage money, render this Company's steamers the CHEAPEST AND MOST EXPEDITIOUS MEANS OF TRANSIT, for passengers or for the forwarding of Goods and Treasure from Aspinwall to Europe.
Under an arrangement with the PACIFIC MAIL STEAMSHIP CO., Specie and Bullion can be conveyed to London and Havre in France
Further information on the subject of Freight and Passage Money will be furnished by the undersigned.

PROCLAMATION.

Vancouver Island.

COLONIAL SECRETARY'S OFFICE, 8th August, 1862.

THE GOVERNOR WITH THE ADvice of the Council, directs it to be notified:

That, to any person or persons who shall first discover a profitable Gold Field within the Colony of Vancouver Island, and make known and describe to the Colonial Government the site and limits of the tract of land comprised in his or their discovery, there shall be paid the sum of One Thousand Pounds sterling (£1000), provided the monies received for Licenses issued for working the said tract of land be equal to that amount; and provided always that there shall have been proved to the satisfaction of the local Government, that there has been BONA FIDE raised and produced from the said tract or field, within Six Months of the issue of the said Licenses, an amount of Gold equal in value to not less than Ten Thousand Pounds (£10,000).

By His Excellency's Command.
WILLIAM A. G. YOUNG.
je9 tf

SAANICH DISTRICT.

BY VIRTUE OF THE COMMISSION vested in me by His Excellency James Douglas, C B., Governor of Vancouver Island and its Dependencies, as a Justice of the Peace for the above named District, I do hereby give notice that I shall in pursuance thereof, proceed to hold a Court on Friday the 12th inst., and on each succeeding Friday, at 10 o'clock A. M., at Saanich Hall Farm, North Saanich, for the purpose of hearing and adjudicating upon all matters which may then and there be brought before me.

THE GOLD COMMISSIONER AND THE LAWYERS.

It is not to be expected that a magistrate in the position of a Gold Commissioner in Cariboo should succeed in making his decisions please everybody. Wherever there are suits there will be two parties the losers and the gainers, the dissatisfied and the satisfied. With the latter the Magistrate is a "Daniel come to judgment," while to the former his decisions are anything but just and equitable. So it will be to the end of time. All we can expect is that the public generally, those who are not parties litigant agree with the general tenor of the magisterial decisions. Such appears to be the case in regard to the suits decided by Commissioner O'Reilly since his arrival at the scene of his labors on Williams Creek in Cariboo. Much of this is owing no doubt to the high esteem in which the character of this gentleman has been held among the people of British Columbia since his arrival amongst them. Such being the case, we regret to observe what we cannot help considering a wrong move on the part of the Commissioner. We allude to the order recently made by him excluding all legal practitioners from practicing except those entitled as of right to exercise their profession in the courts of the colony. Of course, the magistrate had a perfect right to act as he has done, so far as the law of the case is concerned. He had, however, at the same time the option of refusing to move in the matter, and of permitting suitors to have their cases managed by whomsoever they thought most competent. The latter is the course most generally pursued in many of the colonies, and in practice it has not been found to produce any evil effect. Lawyers as a general thing, being most skilled in the law of the country, have tacitly had the field to themselves, without resorting to any protective orders on the part of the magistrates. In Cariboo the same has we believe hitherto been the practice. Many of the lawyers in the lower country have not cared to honor the misty mountains of the gold country with their presence till extra-professional pioneers had paved the way. The mining public have therefore been obliged to resort to such of the latter as they found competent to conduct their business. Some, if not most of those agents, have been admitted to practice law in other countries. All of them are well acquainted with the working of mining laws, much more so than is likely to be the case with lawyers whose practice has been confined to a general law and equity practice. So that as far as actual qualification is concerned, those excluded by the recent order of the Commissioner are not likely to be in any way inferior to those having the priviledge of practicing at the British Columbian bar. This, however, might be all overlooked in favor of the latter, had due notice been given of the intended movement. Had Mr. O'Reilly, given notice at the commencement of the year that none but lawyers entitled by law to practice in all the courts of British Columbia, should be admitted to conduct the business of clients in his Court, every one would have had fair warning, and no great cause of complaint would have arisen. Those outside the profession in British Columbia would have had timely intimation, and would have known that if they went to Cariboo they need not depend upon being allowed to practice law. This would have been much fairer than allowing them to go up there and practice for a few weeks, and then shut them out altogether during the remainder of the season, because Attorney General Cary, who went up in the eleventh hour, leaving a good practice in Victoria, chose with a few of his legal brethren, to make a demand upon the Gold Commissioner to give them the full benefit of their monopoly. One would have thought the priviledged class might have been content with the advantages they possess in the exclusive practice in all other courts; and that the Gold Commissioner would considerately have given a few months notice before he made a change of so much importance both to the mining public in general, and to those gentlemen more immediately affected by his decision.

NECESSITY FOR AN INDIAN INTERPRETER.

The trials of Indians charged with capital crimes, that have lately taken place in this city, must have served to convince any one who paid the slightest attention to the proceedings, that considerable alteration must be made in our mode of managing such affairs, ere we can expect them to be much else than a mere mockery of judicial administration. Our laws may be good, they may be properly interpreted, the application of them to whites may be found to work well, because fairly done, but when an Indian is concerned, one who does not understand our language, there is great danger, under present circumstances, of his becoming a martyr to the careless carrying out of the very regulations that prevent law from becoming tyranny. An Indian is placed upon his trial for murder; he is ignorant of our language; the witnesses in the case are also incapable of expressing their thoughts in our tongue. They tell their story —this evidence the judge, jury, and counsel ought to hear and understand as clear as possible, from the mouth of the first medium. This cannot be done, however, and another medium is called in the person of an interpreter. Now let us see all the probabilities of error intervening between the fact in question as it really occurred, and as it is presented to the jury. First there is the possibility of the witness not having correctly apprehended it; secondly, of not having clearly described it to the interpreter; thirdly, of the interpreter not having understood the witness, and as a necessary consequence incorrectly interpreting it. These are incident to every case where an interpreter is required. Here, however, from the translation being in many instances through the imperfect medium of the Chinook jargon, there is evidently great danger of error on the part both of the witness and interpreter. The jury are to decide upon the evidence. How can they under the above circumstances feel any confidence that what they hear is the truth as uttered by the witness? The interpreters are selected by chance, just as the occasion calls for them. Capability for the duty they undertake is a question which there is no time properly to decide; they may be fit or they may be incapable; who knows? And so it goes on year after year, without any attempt being made to remedy the matter. Now is it not time that a change should occur? In a place situated as this is, frequented by Indians of various tribes, constantly coming in contact with our laws, surely some permanent interpreter is required, capable of directly rendering their ideas into our tongue. There must be quite a number of persons among the old employees of the Hudson Bay Company acquainted with several of the Indian tongues, and quite competent to aid in the administration of justice. If some one could be selected from among the more capable, and receive some suitable salaried appointment unconnected with the police, and not requiring much of his time, he might also do good service in the capacity of public interpreter. He would thus have some incentive towards fitting himself for his duty, by study and practice of the native language. Becoming acquainted with legal formalities and phrases, he would soon be in a much better position to see justice done the poor Indian than any one selected at haphazard whenever the occasion calls for it.

ALBION IRON WORKS

Chatham and Discovery Streets.

Near Dickson, Campbell & Co, New Warehouse Store street.

VICTORIA, V.I.,

JOSEPH SPRATT, PROPRIETOR.

In order to meet the wants of Vancouver Island, British Columbia, and Puget Sound, the Proprietor of the ALBION IRON WORKS has been induced to expend a large sum of money in erecting a

MACHINE SHOP

—AND—

Foundry,

On such improved principles as to enable him to do work with unusual despatch, in the best manner, and at most reasonable rates

There is no similar establishment on the Pacific Coast, that is larger, or better prepared to execute every kind of Machinery, Engines, Blacksmithing, and Iron and Brass Castings. No one need go to San Francisco to fill orders, as the work can be executed at the ALBION IRON WORKS as well, at as low rates, and with as much despatch.

In the Machine Shop there are Bolt-cutting, Planing, and heavy turning Machines.

In the BLACKSMITH SHOP there is a powerful steam blast which enables the Proprietor to do Heavy Blacksmithing.

The attention of persons, and particularly miners, about purchasing Steam Engines, is directed to the Improved Portable Engines, constructed at the Albion Iron Works. These Engines can be successfully worked for Threshing, Hoisting, Pumping, Pile-driving, or for any other use where small power is required. They are simple in construction, have an Economical Boiler, and are considered the best portable engines in use. They would be invaluable auxilaries to the Miners for Hoisting and Pumping.

All orders for high and low pressure Steam Engines, Grist and Quartz Mills, Pumping Machinery, Blacksmithing, Brass and Iron Castings and everything done at a Machine Shop and Foundry, can be filled at the Albion Iron Works.

Particular attention paid to Steamboat Work and general repairs.

Terms: Cash and Low Prices.

JOSEPH SPRATT.

News from Head-waters of Missouri and Kootanais River.

Great Excitement and Immigration!

ANTICIPATED TROUBLES WITH INDIANS.

Mr. Sephenson Winton, a gentleman in the service of the Hudson Bay Company, who has arrived from the company's trading establishment at Colvile, which place he left on the 9th May, has favored us with the following interesting information:

Great excitement prevailed about the Beaver Head and Big-hole diggings at the headwaters of the Missouri and South Saskatchewan rivers. There had been a great rush to the diggings there, which are represented to be very productive.

The company have a station in the Flat Head country, about five or six days' travel on this side of the Rocky Mountains.

Miners came there to trade and brought their dust. They reported the average wages made to be from $10 to $12 per day, though many were making a great deal more.

Immigration was pouring in there fast over the Plains from Canada, St. Louis and other places.

Steamers came up the Missouri and landed goods a short distance from the mines, which made provisions cheap.

An attempt was made to swamp the trade by pack-trains from this side, but it was unsuccessful.

Mr. Winton says a party came from Canada West over the Plains, principally mechanics, and had settled down at Colvile, where they were doing well. They gave the Black Feet and all the Indians tribes which are generally viewed with distrust, an excellent character. The chief difficulty they had to incur was in getting provisions. The traveling they described as pretty easy, and more pleasant than otherwise.

Mr. Winton heard a report which came from some men who had crossed from Red River, that different parties of miners were at work on the Saskatchewan, and that they were doing well.

The tribes in the neighborhood of the Beaver Head mines are numerous; they are composed of the Snakes, Black Feet, Bonnocks, and others. It was feared that a serious rupture would occur between the miners and Indians, in consequence of the objections raised by the natives to the white men coming to occupy and mine on their lands. The Indians did all they could to annoy them and prevent them from working.

Two Indians and one white man had already been shot; and unless troops or an armed force were despatched there by the U. S. government, bloodshed seemed inevitable.

Major Lugenbell's command, 4th Infantry, had proceeded from Vancouver to the Boise to check any insurrection there.

The news from Boise was not nearly as encouraging as from Beaver Mr. Winton met many miners returning with disgust, and cursing the country.

It is the general opinion that the headwaters of the Columbia river are everywhere auriferous, and that gold will be found in all the creeks and tributaries wherever properly prospected.

On Rock Creek there were some men at work, but our informant does not entertain much faith in the yield of these diggings. No results had as yet been obtained there, although the miners themselves felt pretty confident of ultimate success.

Gold had been discovered on the head waters of the Kootenais River, this side of the Rocky Mountains. The river runs into British Territory. The company has a post there, about a day's journey from the mountains. Mr. Winton saw some of the gold. It was beautifully pure. It had not been struck in any large quantities, as no men are now at work there. Beaver-head was in everybody's mouth, and had attracted exclusive attention; but it is believed that this river will yield rich diggings when properly prospected.

The party who had been there returned in consequence of their provisions running out, and were not sufficiently enterprising to go back.

Our informant states that the last winter, though not as severe as the preceding one, was nevertheless extremely cold, and snow still lay on the Cascades when he left, and prevented his coming by way of Fort Hope. He therefore went down Snake River to the Dalles.

THE BITER BIT.—On Saturday one of those "choice spirits" who make their living as purveyors of whisky to the Indians had succeeded in smugling some of the "fire-water" over to the Indian Reserve in a canoe. Having escaped observation so far, the dealer boldly produced the illicit "tap," and wished to trade with the Songish red-skins, when "Jim," who is King Freezy's commander in-chief (highly to his credit be it said) denounced the vile traffic as leading his people into all their troubles, and, without further ado, confiscated the canoe and the liquor, hauling the former up on the bank to his own cabin, and causing the liquor to be spilled, he then told the owner of the forfeited property, that he should report him to the police, and he immediately decamped. On Sunday Jim happened to be away when the spirit merchant put in an appearance, and politely requested from Mrs. James the restoration of the canoe, (probably not his own), Madame declined, and finding he could not remove it by himself, he tried another line and told her he should return that night with pistols, and if the boat were not restored, he should take possession *vi et armis*. Jim, upon his return, came over and informed the police of what had taken place, and a close watch was set for the purveyor, but it is needless to add that he had changed his mind and resolved to put up with the first loss.

A SMASH.—Yesterday afternoon a difficulty occurred on Douglas street, near Fort, between two gentlemen when the wife of one, seeing her husband getting worsted, chased his antagonist with an armful of bricks into his house. Not content with driving him from the field, she bombarded his castle with brick-bats till the ground-floor windows were all smashed, besides sundry pieces of furniture, including piano and mirror, considerably damaged. The case, we presume, will be heard this morning in the police court.

MINERAL EXPLORING COMPANIES.—The gentlemen who have taken the initiative in the formation of the new companies to prospect for gold, copper, and other minerals, have been highly successful thus far. We learn that all the shares at present to be allotted may be considered as taken up. More companies are said to be on the tapis.

FOR ALBERNI.—The ship Strathallan lef the harbor yesterday afternoon in tow of the Otter. She cast anchor in the outer roads and as soon as the wind favored would leave for Alberni Mills to load a cargo of lumber for Shanghae.

STILL BURNING.—The Bellingham Bay mines continue to burn with unabated fury. All efforts to extinguish the flames, we learn, have been unavailing.

FOR THE SOUND.—The sloop Northern Light sailed yesterday for Port Angeles.

Police Court.

(BEFORE A. F. PEMBERTON, ESQ.)

MONDAY, 20th June. 1863.

Yesterday there were no less than sixteen offenders placed in the dock, the majority of whom were whisky-sellers and whisky-drinkers.

WHISKY SELLING.

Andrew Schutz was charged with supplying spirits to Indians.

Sergt. Blake deposed that on Saturday evening he went over to the Indian Reserve and saw prisoner in company with a lot of Indians, eating and drinking; he was presiding over a keg of whisky, and, on noticing the approach of the police, prisoner handed a keg of whisky to a squaw, who hid it in a bush.

Officer Abson corroborated Sergt. Blake's statement.

The prisoner created some merriment by gestures of indignation at the witnesses while they were disclosing his mal-practice, and inflicted several violent blows upon the unoffending dock-rail as he denounced the evidence against him to be a "pack of lies."

The magistrate testified his belief in the innocence of Schultz by sentencing him to pay £50, in default to suffer six month's imprisonment, with hard labor.

Alonzo Stevens was charged by the same officers with supplying liquor to an Indian on Cormorant street. Prisoner denied his guilt, but the offence was clearly proved, and the barman was called, who sold a two gallon can of spirits (which was produced) to the prisoner. Sergeant Blake, moreover, stated that after he had cautioned Stevens about making any statement, he admitted he was guilty, and wanted to have a drink before going to prison.

Mr. Pemberton sentenced the prisoner to pay £50, or suffer 6 months imprisonment with hard labor.

Thos. Belind was convicted of supplying a bottle of spirits to an Indian on Market Alley, and fined £30, or 6 months imprisonment with hard labor.

Thos. Jackson and Jos. Antoine (a colored man) were each charged with a like offence, and remanded for one day.

WOLF! WOLF!

Morris Dobie made the following charge against an Indian named Charley.

On Saturday night at 12 o'clock, complainant was proceeding home along Store street, when he saw the "man in white" watching him. (Poor Dobie naturally felt alarmed. He had probably been perusing a morning paper, and could not restrain his thoughts from reverting to the horrible revelations of garrotings, and the consequent dangerous condition of the highways). He thereupon took to his heels, but the "man in white" moved as nimbly. Instead, however, of going to his house on Fisguard street, he turned back and hallooed, when a police officer appeared, and apprehended the suspicious object.

Charley said he took the complainant for his brother, who was walking ahead of him, and called to him when he saw him run, and he followed.

The magistrate said there was no evidence of criminal intent, and accordingly discharged the prisoner.

HEAVING A PITCHER.

Alex. McLean was charged with assaulting the barman of the Royal Hotel, and causing damage to the extent of $9.

Wm. Bennett proved that prisoner came into the Royal Hotel on Sunday night, and commenced making a disturbance. He struck the witness, who put him out, when McLean returned and threw the water pitcher at his head, causing damage to the above extent.

He was fined $15; $9 to go to complainant.

Prisoner was also ordered to pay $10 for assaulting and resisting special officer Shepherd in the execution of his duty.

BRUTAL ASSAULT.

Three Indians were charged with assault, and attempt to commit murder.

The victim of their savage attack was a young Indian, who presented a frightful appearance, his face having been literally pounded to a mummy.

Sergeant Blake said there were five concerned in the outrage, but he had only succeeded in apprehending three.

The magistrate therefore remanded the prisoners for one day, to enable the police to make search for the other offenders.

DESERTION.

Jas. Lanyon pleaded guilty to being a deserter from the ship Strathallan. About £5 were due to him for wages, and the magistrate ordered him to forfeit £2 and to suffer 2 months imprisonment with hard labor.

CITY COUNCIL.

MONDAY EVENING, June 29, 1863.

Present—His Worship the Mayor, and Messrs. Copland, Reid, Lewis and Hicks.

His Worship said that before proceeding to business, he would observe that it would be necessary in order to conform with the charter, to call a special meeting of the Council to confirm the vote for the Fire Department. He would therefore instruct the clerk to summon the Council for a special meeting at 7 o'clock on Monday evening next, the regular business of the meeting to commence at half past seven.

COMMUNICATIONS.

A communication was read from Messrs. Pattrick & Co., and others, requesting the Council to have the lines of the city lots defined for the puapose of permanent improvements.

His worship remarked that it was highly essential to have the corner posts defined. This subject had been several times brought before the Council.

Mr. Copland also considered that it was very necessary to have the corner posts placed on a satisfactory basis. He advocated the appropriation of a sufficient sum to enable the City Surveyor to make a survey and plan of the city by which the street boundaries should be definitely and permanently regulated. He thought it impossible to fix the lines without having a survey of the whole city, as they could not start from any particular corner which is not correctly ascertained.

Ordered to be received and placed on file.

FORT STREET—A TEMPEST IN A TEA-POT.

A certificate was read from the City Surveyor, certifying that the sidewalk on south side of Fort street, above Cook street, fronting Mr. Thorne's and Mr. Gladwin's lots, was laid 14 inches below the grade on the north side, and that the plank was half an inch thinner than was required, but would answer the purpose well, and the work was well executed.

Mr. Hicks thought there would be no justice in fixing the grade in one instance when others had departed from it.

Mr. Copland wanted to know by what authority the sidewalk had been laid down, and called attention to a petition received by the Council some time since, purporting to come from seven-tenths of the property holders, which he had moved to have referred back, to ascertain if it had been properly signed, and desired the clerk should read the minutes.

Mr. Lewis rose to order and deprecated the present discussion and proceeding of the Council, in sending for the City Surveyor to be questioned, as it reflected upon the Committee on Sidewalks (of which he was a member), and thought that any questions or information sought, should have been first submitted to be answered by one of them.

Mr. Copland said Councillor Lewis always misconstrued what he said.

Mr. Lewis was again rising to speak when he was called to order by the Mayor, and thereupon left the room.

His Worship observed that there was not a quorum and therefore no further business could be transacted, but he must observe "that it was most extraordinary and ridiculous conduct on the part of Councillor Lewis to leave the board as he had done. He (the Mayor) would always summon the City Surveyor or any officer of the Council to attend their meetings and furnish information of an important nature when it was required. It was their duty to attend when they were wanted, else what were they paid for? He considered the street boundary question a most important one, for which reason he had requested the City Surveyor to be present, and he therefore thought Councillor Lewis had acted ridiculously towards the Council as well as his fellow townsmen.

Mr. Hicks coincided.

Mr. Copland said His Worship was quite right. The City Surveyor might be able to throw more light upon the subject in one minute than the committee could in half an hour. In asking for a reference to the minutes he had intended no reflection upon the committee. It was only a matter of memory.

Capt. Reid took no part in the discussion.

His Worship remarked that he believed the City Surveyor was always ready to do anything to meet the wishes of the Council, and that he had not acted discourteously in asking him to attend the meeting.

There being no quorum, the Council adjourned to 7 p. m. on Monday next.

STREET IMPROVEMENTS.—The improvement of our streets is steadily progressing in a manner highly creditable to our city authorities, and satisfactory to our citizens generally. What with the sidewalks in every part of the thickly settled portions of the city, and the grading and macadamizing done on Yates, Fort, and Wharf streets, with the work now under contract on Government, Broad, Douglas and Cormorant streets, the civic taxes appear to be wisely spent. An excellent job is being done on Government from Johnson street to beyond Herald. We would, however, call the attention of the civic authorities to the necessity of spending a little more money in that quarter in order to make it possible for vehicles to get on to Government from the streets which cut it at right angles. The cutting has been so deep that it is impossible for a wagon to pass from Cormorant, Fisguard, or Herald, into Government. And at the end of the grading on the latter, a steep bluff has been made which is also an obstruction. If the ends of the cross-streets were cut down, and the earth dumped at the north end of Government, vehicles of every description might enter Government street. If left as it is, the improvement of the latter street will not be of such great value as could be wished. The expense of the improvements we suggest would be trifling.

THE STEAMER ELIZA ANDERSON, anxiously looked for as the probable bearer of very important news, had not arrived at the time of our going to press.

FROM NANAIMO.—The schooner North Star, arrived yesterday morning with a cargo of coal.

Additional News from Poland and Russia.

We clip the following from the Liverpool *Mercury* of May 9th:

The corps of the Polish leader, General Jezioranski, is at the present moment occupying a very prominent position in the telegrams. A letter of the first instant, from the special correspondent of the *Daily News* (who was then engaged in the hazardous task of attempting to reach the camp of that leader, and who had succeeded in crossing the Austro-Russian frontier in safety) shows that the band with which Jezioranski is now acting has only been recently organized in Galicia. The excessive vigilance of the Austrian authorities and the abundance of Russian spies made the Poles almost despair of the possibility of a successful passage of the frontier across the river Sän. The general, however, managed to cross easily—he and a middle-aged lady travelling in a wagon as a farmer and his wife going to market; and he crossed the frontier, too, at a distance of only two miles from a point where an Austrian official boasted that "not even a bird could get over the frontier without his knowing it." The 800 followers of Jezioranski (carrying arms for 1200) had a more difficult task, but they were equally successful. They left the neighborhood of Jaroslaw in a body, and as all the regular ferries on the San were guarded by the Austrian troops, they approached the river cautiously, and on the night of Sunday the 2gth ult., got over safely on a sort of extempore raft. The General, having joined his troops, dispatched a squadron of his "Cossacks" (for the insurgents have now organized cavalry precisely similar) to the town of Krzeszow, to seize the money chest. This operation was satisfactorily performed, and the chest was found to contain 1600 roubles.

On Tuesday the insurgents proceeded to Tarnogrod, and proclaimed the national government. On the road they had a skirmish with some Russian cavalry, 15 of whom were killed. On the following day, the Russians entered Tarnogrod with 800 infantry and 200 cavalry; but, as "they never attack the insurgents except with numbers in the proportion of three or four to one," they waited for reinforcements before attacking Jezioranski. On the Thursday these reinforcements seem to have arrived, for a letter of the 3d instant from Cracow states that the first battle had been fought near to Tarnogrod, and the Russians were utterly defeated, leaving 80 dead on the field. On the 6th, according to a telegram from Lemberg, a second battle took place at Tepely, in the palatinate of Sandemir. The Russians were 3500 strong; but Jezioranski defeated them with a loss of 400 killed and wounded—the Polish loss being 100. On the 7th another fight took place; but, after a contest of three hours' duration, the Russians retreated. On the 6th and 7th instant, however, two Polish bands were defeated. One of these may have been that of Jezioranski.

CRACOW, May 8.—Yesterday the insurgents were defeated and dispersed near Seyce and Walkowinne. A portion of them fought their way into the interior, and 141 others have been conveyed to this city.

WARSAW, May 7th.—On the 6th instant, Miniewski suffered a defeat with considerable loss at Krzijkawka. General Nielle was killed.

Six hundred insurgents, who had come from Galicia, have been defeated near Slowke. Thirty-one of their number were taken prisoners, among whom were 14 French men and Italians. On the 5th instant the insurgent chief Bonitza, with 800 men, attacked the Russian infantry near Milzyrzees, but was defeated and taken prisoner.

ST. PETERSBURG, May 3.—The effect which the Polish insurrection has produced here stands in wonderful contrast with the sympathy it has met with abroad.

The outbreak in Poland has excited the spirit of patriotism to a state of enthusiasm. Young and old, great and small, are prepared to shoulder the musket and meet the enemy whoever he may be. This feeling has extended itsels to all classes. The nobility of Moscow, in a recent address to the Emperor, begged to be permitted to be the first to take the field should it be necessary to uphold the integrity of the empire. The merchants have placed their property at the disposal of the Goverement. The orthodox party, who were said to be ill-disposed towards the administration, have also offered 40,000,000 of rubles. The Cossacks of the Don propose to raise 100,000 men, and even the nobility of the three eastern provinces have just presented an address expressing their loyalty. In St. Petersburg, demonstrations, manifestoes, deputations, and addresses are the order of the day. This extraordinary display of enthusiasm is caused by the Russian Goverament, which avails itself of every opportunity to excite public opinion against the Polish insurrection, and against those parties at home who may favor the grant of a constitution. Thus deputations and addresses urging the Emperor to make any sacrifice rather than that the Polish provinces should be separated from the empire are favorably received and the promoters rewarded, while the promoters of those addresses having in view the grant of a constitution meet with a very different reception, and are in some instances prosecuted.

HOLLOWAYS OINTMENT AND PILLS.—The treatment pursued by Professor Holloway for the cure of wounds and ulcers is the most simple and certain in its effects, it has been tried by hundreds of thousands and never been known to fail; by the administration of an internal remedy (the Pills,) he drives disease out, and by the administration of an external remedy (the Ointment), he heals wounds, ulcers, and the worst of external disorders. By this celebrated treatment, also, bad legs and ulcers are cured, even when they have been upwards of twenty years standing

Dr. Baker's Pain Panacea

IS composed entirely of healing gums, and vegetable oils and herbs. It is perfectly safe for the most delicate to use. I can most sincerely say that I have never known any, however delicate to be injured by it in the least. I will continue to ask the afflicted, who have not used it, to try it for the following diseases. If they are not satisfied with its healing properties, the money will be cheerfully refunded by the Agent where the medicine is for sale.

If you have Pain in the Stomach or Bowels, try a dose of Pain Panacea internally, bathe externally over the parts affected, and you will at once restore the proper action and relieve the pain.

If you have a Bruise or Wound, bathe it well with the Pain Panacea four times a day. It will relieve the pain, and take out all the poison, and heal the wound in a short time.

If you are suffering from Neuralgia or Rheumatic Pains, apply the Panacea freely, and take a dose of it internally, morning, noon and night; it will not only cure the pain, but will remove the cause of the disease.

If you have the Dispepsia, and your food distresses your stomach after eating, take a dose of Pain Panacea after each meal.

If you have a Cankered or Sore Mouth or Throat, apply the Pain Panacea to the affected parts, and gargle the mouth or throat three or four times a day.

If you have the Diarrhæ, or a relaxed state of the bowels, take a few doses of Pain Panacea and they will soon be restored. If you have a painful swelling bathe the parts freely and you will soon relieve the pain, and the swelling will be reduced If you have a severe toothache, apply the Pain Panacea on a piece of cotton, and bathe the gum at the same time; it will stop the pain instantly.

If you have a pain in the Side, Breast, Back, or Kidneys, bathe the parts affected morning and night; at the same time take a dose of the Panacea internally.

If a Mother has a Caked Breast, apply the Pain Panacea as hot as can be borne.

If you feel chilly or cold, as though you were going to have a fever, take a dose of Panacea.

If you have a wound, cut, or galls on you horse, apply the Pain Panacea; it will take out all the inflammation, and heal the sore in a short time. Sold by all the principal druggists, and by

HEALTH FOR A SHILLING.
Holloway's Pills.
Headaches, Bile, Loss of Appetite, and Lowness of Spirits.

These Pills require no interruption of business or pleasure; they act mildly on the bowels, strengthen the stomach, and promote a healthy action of the liver, whereby they purify the blood, cleanse the skin, brace the nerves, and invigorate the whole system. They effect a truly wonderful change in debilitated constitutions, as they create a healthy appetite correct indigestion, remove bile, giddiness, head aches, and palpitation of the heart.

Weakness and Debility.

of debility, languor, and nervousness generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease; re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigor They increase the appetite, while they secure perfect digestion to all ordinary food, and release the invalid from restraint in diet.

A Word to Females.

There are two periods, especially in Woman's life, which require for safe passage, judgment and attention. Irregularity is apt at those critical times to take place, and to lay the foundation of future disease. These Pills, safe in action, and effective in result, should be taken at certain periods, and the issue will be marvellous both to the young and the middle aged. They prevent nervousness, hysterics, dropsy, and a host of similar serious disorders, by expelling all impurities from the system, therefore none should ver be without them.

Coughs, Colds, and Asthmas.

No medicine will cure colds so quickly as these Pills, when of long duration or settled on the chest or even though it has assumed the first stage of asthma, they may be relied on as a certain and never failing cure, particularly if the Ointment be well rubbed into the chest and throat night and morning. this catch the eye of any asthmatical person so bad as even not able to lie down in bed, let him well use these two preparations for only a week, and the result will be marvellous.

Blood to the Head—Diseases of the Heart.

More persons die suddenly from diseases of the heart than the unlearned suppose: in such complaints, the bowels should always be kept well open, as also where there is a tendency of blood to the head. These celebrated Pills purify the blood in an extraordinary manner, and should be taken in copious doses when such symptoms occur, taking care not to overload the stomach; by this means al danger is quickly averted.

Children's Complaints.

It is not generally known, but such is the fact, that children require medicine oftener than their parents Three-fourths of the children die before they attain the age of eight years. Let mothers, then, be wise and give to their children small doses of these invaluable Pills once or twice every week, in such quantity as may act gently upon the system twice in the twenty-four hours. For infants, a Pill may be crushed and given as a powder in a little water The gross humors that are constantly floating about in the blood of children, the forerunners of so many complaints, will thus be expelled, and the lives of thousands saved and preserved to their parents.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague Asthma Billious Complaints Blotches on the Skin Bowel Complaints Colics Constipation of Bowels Consumption Debility	Dropsy Dysentery Erysipelas Female Irregularities Fevers of all kinds Fits Gout Head-ache Indigestion Worms of all kinds	Inflammation Jaundice Liver Complaints Lumbago Piles Rheumatism Retention of Urine Scrofula, or King's Evil	Sore Throat Stone and Gravel Secondary Symptoms Tic-Douloureux Tumours Ulcers Venereal Affections Weakness, from whatever cause

☞ There is a considerable saving by taking the larger sizes.
N. B.—Directions for the guidance of patients in every disorder are affixed to each Box. n14

BRITISH COLONIST.

A MERMAID IN THE GULF.—Mr. Graham, who is erecting a saw mill on Burrard Inlet, has just given us an interesting description of one of these mythological marine animals which he saw on Monday week in the Gulf of Georgia, about midway between the Inlet and the mouth of the Fraser. It was about 6 o'clock P. M., when he saw it gradually rise above the surface of the water within about 30 yards of where he was, showing the entire bust, in which position it remained for the space of five minutes looking in the direction of the boat in which he and two Indians were sitting, when it slowly sank into its native element. The Indians evinced considerable alarm at the strange phenomenon. Mr. Graham describes it as having the appearance of a female with long hair of a yellowish-brown tinge drooping over its shoulders, the color of the skin being a dark olive. The Indians have a legend that if this animal is seen and not killed those by whom it is seen will pine away and die, and relate an instance of the kind as having occurred amongst the Squamish tribe. Hence the alarm of these Indians at the sight of the one alluded to. They also state that many years ago one was killed on Squamish river by an aged Indian.—*British Columbian.*

A STRANGE STORY.—Naturalists are delighted to read that at last a "Moa" has been seen in New Zealand. The moa is a walking, not a flying bird, supposed from the numerous skeletons which have been found of it, to grow from eight to nine feet high. It has been hitherto believed to be extinct, though it was known to that within the memory of men now living on the island, it had been killed and eaten by the natives. It was always hoped that in the unexplored parts of the island some lost specimen of this nearly extinct race might yet be found alive; and now it seems that a gold miner, sitting by his camp fire saw one, peering at him from the edge of a near hill. He took it at first to be a man, but presently saw it gravely starting off. The track or foot-print of this great bird showed three claws, and about a foot behind, the mark of a pad, and behind that, again, of a spur." A reward of $2 500 has been offered for the bird, alive or dead; and if the miner told the truth, we may yet see a living moa—a member of a tribe once sufficiently numerous in New Zealand to be a source of dread to the natives.

FOR SALE—TO LET.

ROUTES TO CARIBOO.

HURRAH

For Cariboo!!

DOUGLAS

AND

LILLOOET ROUTE

IS BY FAR THE

Shortest and Best

BOTH FOR

MEN AND ANIMALS

TO THE

CARIBOO MINES,

As will be seen at once by the following TABLE of DISTANCES, which have been CHAINED by Government, NOT GUESSED AT, as on the Lytton Mule Trail.

FROM DOUGLAS TO HANCOCK'S	4	Miles.
Thence to Perry's	6	"
" Hensley's	1	"
" Chapais'	3	"
" Gowan's	2	"
" Stein's (Hot Springs)	4	"
" Joice's	4	"
" Williams'	4	"
" Pemberton, over the Lillooet Lakes now connected by Steamers—Fare, $1	20	"
" Half-Way House	12	"
" Anderson Lake	12	"
From Anderson and Seaton Lakes to Port Seaton—Fare, $1 on each Lake	34	"
Thence to Lilloet Flat	3½	"
Whole Distance from Douglas to Lillooet by Land over a Good Wagon Road	55½	"

☞ Remember that Lillooet is 45 Miles above Lytton. ☜

On the Lillooet Lake

Goulding's New and Splendid Steamer

"Prince of Wales"

100 TONS BURTHEN,

Will Make Two Trips per Day,

And is capable of taking on board

The Heaviest Wagons

OR

AN ENTIRE MULE TRAIN!

On Seaton Lake

Taylor & Co. are just Completing a

A SIDE-WHEEL STEAMER, THE

Prince Alfred

110 FEET IN LENGTH,

Capable of Transporting 200 tons of Freight per Day.

ABOVE LILLOOET, the Distances are as follows

From Lillooet to Fountain	8	Miles.
" Fountain to Pavillion	13	"
" Pavillion to Cut Off Valley	14	"
" Cut Off to Clinton	12	"
Total	47	Miles.

Making the Distance from Lillooet to the Junction of the

LILLOOET-ALEXANDRIA WAGON ROAD

WITH THE

LYTTON CITY MULE TRAIL

Only 47 Miles,

While the same point is 92 miles from Lytton, and only 20 miles of the Lytton Alexandria Wagon Road are Finished in any one place!

From Clinton to Alexandria

Wright's Wagon Road

Will be Completed by the 1st of June,

WHEN A

Regular Line of Stages

WILL RUN

FROM DOUGLAS TO ALEXANDRIA

Connecting there with the New Steamer "ENTERPRISE," which will make

DAILY TRIPS

From thence to Quesnelle River,

Landing Freight and Passengers within

50 Miles of Lightning and Van Winkle Creeks!

☞ We call upon travellers who have Wagons or Animals, especially to

Avoid the Lytton Route!

As the Wagon Road is Unfinished, and will not be passable before the 1st of August.

☞ Do not be deceived by the representations of interested parties who will give you all sorts of false information regarding the Lytton Route, and the various distances, which have never yet been measured.

As a Proof of the Existence of

Good Hotels on the Wagon Road!

Above Lillooet, we give the following list of Houses and their distances from Lillooet.

	MILES.
Lorenzo's	8
Frenchman's	18
Reynolds'	20
Maitley's	22
McBeath's	28
Harkell's	29
Reynolds'	36
Watson's	47
Saul & Co's	60
Calbraith's	70
McMurphy's	74
Walters & Co's	87
Bridge Creek	100
Durgan's	106
Cochrane's	112
Anderson's	116
Felker's	128
Mrs. Jones	146
Davidson's	151
Deep Creek	161
Dunleavy's	184
Alexandria	200

One Hundred Wagons

WILL BE EMPLOYED IN

Transporting Goods on this Route.

By the new arrangements made this year on the Douglas Route,

Passengers Leaving Douglas by Stage

WILL

Reach Lillooet the next Morning.

FROM LILLOOET TO ALEXANDRIA

Will only occupy Four Days,

THENCE ON TO MOUTH OF QUESNELLE THROUGH TO VAN WINKLE.

Then by all means take the Douglas and Lillooet Route as the Cheapest, Quickest, Safest, most Commodious and above all the most High-Toned and

ELEGANT ROUTE TO CARIBOO.
m9

ROUTES TO CARIBOO.

Every Person Should Know

THAT THE

Shortest, Best and Cheapest

ROUTE

TO THE

CARIBOO MINES

IS VIA THE

YALE AND LYTTON

WAGON ROAD!

The chained distances on the Yale and Lytton Road are as follows:

From Yale to Boston Bar	25	Miles
" Boston Bar to Lytton	32½	"
" Lytton to McLean's	47½	"
" McLean's to the Junction of the Wagon Roads	19	"

Distance from Yale to Junction. 124 Mile.

COMPARE THE ABOVE

With the following distances set down by Lillooet shippers:

From Douglas to Lillooet	110	Miles
" Lillooet to Junction	47	"

Distance from Douglas to Junction..157 Miles

The Junction

Is the point at which the Wagon Roads intersect each other, and where the Cariboo-bound traveller by the Yale-Lytton and Douglas-Lillooet routes MUST meet. It will, therefore, be seen by the above figures that the traveller by YALE and LYTTON has

THIRTY-THREE MILES LESS TRAVEL

Than if he went by the Douglas-Lillooet Route.

☞ Remember that on this Route there are NO PORTAGES where Goods or Animals may be detained.

Messrs. DUHIG, LANE, BLACK, and other Carriers of Merchandise, advertise to

Carry Freight from Yale to Lytton

$20 Per Ton Less

Than is or will be charged on the Douglas-Lillooet Route.

THE NEW AND SPLENDID STEAMER

"Reliance"

Connects with the Victoria Steamer

"Enterprise"

And conveys her Freight and Passengers to Yale at greatly reduced Rates.

Shippers

Desirous of getting Freight through to Cariboo this season are advised to

Shun the Douglas-Lillooet Route!!

☞ And are also referred to the testimony adduced in the CRANFORD CASE, wherein witnesses have stated upon oath that 15, 20, or even 30 Days is a reasonable time to convey Freight from Douglas to Lillooet.

Five Days only are Required

To carry Goods from Yale to Lytton, and

Shippers are Assured

That if Freight is carried from Douglas to Lillooet for two Cents per lb.,

CARRIERS ARE PREPARED TO

FREIGHT FROM YALE TO LYTTON

With Safety and Despatch, for

One Cent Per Lb.!

All those who allow themselves to be crammed by Douglasites this year need expect no sympathy from the public if they get broke in trying to get goods through that route.

☞ Remember the Cranford affair, and steer clear of extortion and delays.

Travel the Yale and Lytton Wagon Road to the Cariboo Mines

☞ New and Commodious Hotels have been erected at convenient distances along the entire length of the Route where First Class Accommodations for both man and beast are bestowed at moderate rates

☞ FOR CHEAPNESS, DESPATCH, EASE and SECURITY choose the Yale and Lytton Route in preference to all others in British Columbia.

GOOD NEWS FOR EVERY ONE

KNOWLEDGE IS POWER. IF YOU DEsire to preserve your health, a knowledge of the laws for its preservation is essential. If you are ill, and have sought in vain for renewed health, what is the reason? Simply this, a want of information on the subject. The civilisation of the present day renders some aid to nature in the preservation and restoration of health indispensably necessary; and the only question is whence is the required help to be obtained? Undoubtedly, by using

Kaye's Worsdell's Vegetable Restorative Pills.

For the last thirty years the truth has been gaining ground that to purify the blood is the simplest and most natural way of restoring and maintaining health; and the great and distinguishing feature of these celebrated pills is that they speedily eradicate all disease from the body, by purifying the blood; thus good health is at once secured, and all may ensure a sound constitution and complete freedom from pain and disease.

The pamphlet enclosed with each box of the pills gives most interesting particulars of many hundreds of cases of cure, together with instructions for the use of the medicine.

TRY ONE BOX OF

KAYE'S WORSDELL'S PILLS,

AND JUDGE BY THE RESULT.

Prepared solely by JOHN KAYE, Esq., of Prospect Hall, Woodford, Essex.

MEDICAL.

THE WORLD'S FRIEND!

Holloway's Ointment.

A Cure for Piles and Fistulas.

Inflammation of sensitive parts, piles, fistulas, and such like painful diseases may be presently relieved and ultimately cured, by the proper and diligent use of this cooling and healing Ointment, whose action should, in such cases, be assisted by judicious doses of Pills: ere many days have elapsed the anxious patient will experience a wonderful degree of ease from this treatment. They are equally suitable to both sexes, and all ages.

Coughs, Colds, and Asthma.

These complaints of the chest come on with alarming frequency. The Ointment should assiduously be rubbed at least twice a day on the chest and between the shoulders, when the violence of all symptoms will gradually give way, the breathing become longer, and the oppression less. No medicines are more efficient in chest complaints, none can be used with equal safety and certainty. Both Pills and Ointment are accompanied by very clear and simple directions for using them.

A Man who refused to have his Leg off.

"*From the Kilrush Advertiser, June 2nd, 1860.*

BENJAMIN COX, Esquire, Magistrate, said in the Board Room at Kilrush, that he knew a man who had been in the Infirmary and was actually turned out as incurable, on his way home to Kilrush, he purchased at Ennis, Holloway's Pills and Ointment, for, as he said, it could not be worse with him. This man, said Mr. Cox, became by their use as sound and as healthy as any man in the room. These celebrated Pills and Ointment will cure any wound, sore, or ulcer, however long standing, if properly used according to the printed directions.

Gout and Rheumatism.

The essence of these diseases lie in the blood, which has, floating through each vessel, the pain-giving poison, which irritates and inflames every tissue it comes in contact with, and produces the hot, swollen, elastic enlargement about the joints so characteristic of gouty diseases. The philosophy of cure consists in overcoming this depravity in the blood, which is rapidly purified by the use of the Pills. The Ointment, when rubbed upon the skin, penetrates the system through the pores, acts in unison with Pills, and soon effects a cure.

Dropsy, Swollen Legs or Ankles.

The various kinds of dropsies, whether windy or watery, arise from some obstruction to the free circulation though the blood vessels or lymphatics, or depend on the inflamed state of some secreting surface. Holloway's remedies, of which the efficacy cannot be exaggerated, act directly upon the blood, the absorbents and secretions, with a power that no dropsy, however inveterate, can long resist. They regulate the proper flow of blood to every organ, and purify it likewise,—they filter out everything that is morbid or injurious,—they thoroughly regenerate every function, yet potent as they are for good, they are powerless for evil. They do not contain mercury or any noxious substances. They act safely and certainly.

Bad Legs, Bad Breasts, and Old Ulcers.

This invaluable Ointment was never known to fail in the cure of any wound, any sore, any ulcer,—as can be proved by innumerable testimonials from persons who had been discharged from Hospitals as incurable, and yet by perseverance they have been made as sound as they were the day they were born, by this incomparable Ointment. For pimples, blotches, scald heads, and scorbutic humours, it is equally efficacious.

Both the Ointment and Pills should be used in the following cases:

Bad Legs	Chiego-foot	Fistulas	Sore-throats
Bad Breasts	Chilblains	Gout	Skin-diseases
Burns	Chapped Hands	Glandular	Scurvy
Bunions	Corns (Soft)	Swellings	Sore-heads
Bite of Moschitoes and Sand-Flies	Cancers	Lumbago	Tumours
Coco-bay	Contracted and Stiff Joints	Piles	Ulcers
Scads	Elephantiasis	Rheumatism	Wounds
			Yaws
			Sore Nipple

☞ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot. n13

DR. J. COLLIS BROWNE'S

Chlorodyne.

CHOLERA, DYSENTERY, DIARRHŒA, CRAMP, AGUE, FEVER, RHEUMATISM, CONSUMPTION, ASTHMA, COUGH, &c.

ALL PAIN, VOMITING AND DISTRESS ceases in a few minutes after taking a dose of that wonderful SEDATIVE ANODYNE and ANTISPASMODIC remedy discovered by Dr. J. Collis Browne M.R.C.S.L., (ex-Army Med Staff) the recipe of which was confided solely to J. T. Davenport, 33 Great Russell street, Bloomsbury-square, London (Pharmaceutical Chemist). The medical testimony of civil, hospital, military and naval practitioners pronounces it INVALUABLE. It relieves pain of any kind, soothes the restlessness of fever, and imparts the most refreshing sleep, without producing or leaving any of the unpleasant effects of opium.

As a proof of its efficacy, a few extracts from numerous Testimonials by Physicians and Surgeons are given:

From W. Vesalius Pettigrew M. D., Hon. F.R.C.S., England, formerly Lecturer upon Anatomy and Physiology at St. George's School of Medicine: "I have used it in Consumption, Asthma, Diarrhœa and other diseases, and am most perfectly satisfied with the results."

Dr. Gibbon, Army Medical Staff, Calcutta: "Two doses completely cured me of Diarrhœa."

From C. V. Ridout, Esq., Surgeon, Egham: "As an astringent in severe Diarrhœa and an antispasmodic in Colic and Cramps in the Abdomen, the relief is instantaneous."

Extracts from the General Board of Health, London, as to its efficacy in Cholera.

1st Stage of Premonitory—In this stage the remedy acts as a charm one dose generally sufficient.

2nd Stage, or that of Vomiting and Purging—In this stage the remedy possesses great power, more than any other we are acquainted with, two or three doses being sufficient.

3rd Stage, or Collapse—In all cases restoring the pulse. So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of using it in all cases.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery." To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

CAUTION.—In consequence of the extraordinary efficacy of this remedy, several unprincipled parties have been induced to vend imitations. Never be tempted to buy Chlorodyne, except in sealed bottles, having the Government stamp, with the words "Dr. J. Collis Browne's Chlorodyne" engraved thereon. A sheet full of medical testimonials accompanies each bottle. Sole manufacturer, J. T. DAVENPORT, 33 Great Russell street, Bloomsbury, London. Sold in bottles, 2s 9d and 4s 6d. ju24wly
